# DIXIE RESTORATION DEPOT

## Let Dixie Restoration Depot be your one-stop shop for everything interior!

Customize your dash with the paint, gauge cluster, and trim panels of your choice. Single or dual speaker lower door panels will give your interior the perfect combination of style and sound. We can also replace your cracked or worn out center console. Our exclusive solid urethane console door, which features a soft-touch clear coat that is virtually unscratchable, will last longer than the factory original. Whether you need upholstery, carpet, or trim panels, give us a call to find out how we can help bring your interior back to life.

## 1978-87 Interior Trim Panels

Dixie Restoration Depot is proud to offer the world's largest collection of exclusive G-body interior trim panels. A-pillars, door panels, kick panels, rear quarter window trim and much more. Choose from a variety of factory original colors or stick with bare plastic for greater savings.

## 1985-87 4.3L Fuel Sending Unit

This direct replacement 3-outlet fuel sending unit fits 85-87 4.3L El Caminos with fuel injection. It features CNC bent stainless steel tubing and includes a fuel strainer, lock ring, and seal. It can also be used for other years when converting to a modern fuel injected engine.

**Brakes**

**Brake Lines, Hoses & Hydraulics**

**Chevelle/El Camino/Monte Brake Distribution Block**

This block was used on both disc and drum brake cars and is located on the frame below the master cylinder. This is not a proportioning valve; it does not hold off pressure unless there is a loss of pressure in either the front or rear brakes. It will then contact the brake warning light in the dash. In 1968-69 and 70-72, this block is used on all drum cars and in 1967-70 with the round hold-off valve at the master on disc brake cars. In 1971, the disc brake cars use a different valve and the drum brake applications continue to use this valve. This block gives equal pressure to the front and rear brakes and is also great for 4 wheel disc applications.

DA93020-6869	68-69	<b>\$74.95</b>
DA93020-7072	70-72	<b>\$74.95</b>

**Chevelle/El Camino/Monte Brake Hold-Off Valve**

This is the golf ball size valve that hangs off the driver side stud of the master cylinder. This hold off valve came on factory disc brake cars. It is part one of the two or three part valve system. All the cars, whether disc or drum, had the same valve on the frame (see part #DM93020). The disc cars had this hold off valve in addition to the frame valve. They must be used together.

DA93021-1968	1968	<b>\$79.95</b>
DA93021-1969	1969	<b>\$79.95</b>
DA93021-1970	1970	<b>\$79.95</b>

**1970 Rear Chev/El Camino/Monte Brake Hold-Off Valve**

This valve for 1970 Chevelle, El Camino & Monte Carlo w/ factory disc brakes was used to hold off pressure to the rear brakes so the front brakes would go on a split second before. It is located at the rear of the car, mounted to the back cross member close to where the rubber brake hose attaches through the frame. In 1970, these cars had three valves that made up the disc brake system. The valves include: this rear valve, a distribution block (see part #DM93020), and a round golf ball valve (see part #DM93021). In 1971, these three pieces were combined into one valve which simplified the system.

DA93022		<b>\$44.95</b>
---------	--	----------------

**68-70 Chev/El Camino Disc Conversion Valve**

This conversion valve is used when converting front drum brakes to disc on 68-70 Chevelle & El Camino. For disc brake conversions, this aftermarket 1 piece valve is mounted on a bracket under the master cylinder to keep the valve away from headers and other engine modifications. This valve will not plumb into existing factory lines.

DA93023	For use when converting to front disc brake	<b>\$91.00</b>
---------	---	----------------

**Brakes**

**Brake Lines, Hoses & Hydraulics**

**71-72 Chevelle & El Camino Proportioning Valve**

71-72 Chevelle & El Camino proportioning valve. This valve mounts on the frame below the master.

DA93024	<b>\$91.00</b>
---------	----------------

**68-88 Disc/Disc Conversion Proportioning Valve**

This 5 port valve works great on factory cars that have been converted to rear disc brakes. This valve is preset for disc brakes in the front and rear. The 5 ports are; 2 ports on top for the lines from the master cylinder to the valve, 1 right front port, 1 left front port and 1 port for the front to rear brake line. This valve serves as a replacement on all GM cars from 1971-88. This valve is also used on GM rear disc brake conversions. There is no adjustment on the valve. It is set to be 50% front brake, 50% rear brake pressure.

DA93026	<b>\$79.95</b>

**Cooling**

**Radiators**

**68-77 Champion Aluminum Radiator**

If your new bigger, badder engine is causing some strain on your cooling system, then a Champion radiator is the answer. Each radiator includes a 16lb cap and a transmission cooler (1/2"-20 straight thread). Total dimensions are 33"W x 18.625"H (19" w/ cap) x 2.75" deep, and the core measures 28.25"W x 17."H x 2" thick. The driver's side inlet is 1.5", and the passenger's side outlet is 1.5" in diameter. The tubes are 0.63" thick. They are available in a 3 core or 4 core designed to support 750 or 800 HP.

**Polyurethane**

**65-88 Polyurethane Rear End Housing Bushings**

UMI's high durometer polyurethane bushings replace the factory rubber rear end housing bushings. After many years of weather and abuse the factory rubber bushings tend to dry rot, crack and harden which can lead to decreased ride quality and performance. The UMI polyurethane bushings replace the two upper control arm rear end differential bushings - the bushings that stay attached to the rear end "ears". New rear end housing bushings are an excellent upgrade for your street driven or track used vehicle. Kit includes two bushings and two washers, the included polyurethane washers prevent the bushings from walking side to side. Available in black or red, and made in the USA.

**Shocks**

**68-88 UMI Street Performance Shocks**

UMI Street Performance monotube shocks are designed to bridge the gap between basic street shocks and aggressive racing shocks. Medium-firm compression valving provides crisp handling and absorbs bumps while still providing a comfortable ride. The ramped up rebound curve slows body roll during transition and gets rid of that unwanted floating feeling. A high pressure nitrogen charge prevents shock fade during hard cornering and further increases performance. Race proven technology with street friendly valving. Suitable for street, corner carving, Pro-Touring and non-competition drag racing. Available in front/rear pairs and as a complete set of 4. UMI Performance shocks are 100% manufactured in the USA.

**68-88 KYB Gas-A-Just Shocks (set of 4)**

These 1968-1988 Monte Carlo, El Camino, Chevelle, & Malibu front and rear KYB gas shocks (set of 4) will provide a slightly firmer ride than factory and will handle much better. Their self-adjusting quality makes them get stiffer as more load is applied. This gives much better cornering and handling characteristics for both comfort and performance.

**Suspension**

**Springs & Spindles**

**68-88 UMI 1" Lowering Springs**

UMI's drop springs are the best in the business. The front springs are wound from 5160 CrSi premium wire and feature a linear 600 lb/in rate. The rear springs are wound from 9254 CrSi premium wire and feature a linear 130 lb/in rate. The linear rate provides consistent handling characteristics for Auto-x and Pro-Tour applications while the increase in stiffness reduces body roll and prevents the "floating" feeling so common with the G-body. They have a tough black powder coat finish. The ride height is engineered for a 1" drop with standard SBC as well as LS power (lightened cars may require spring trimming). The front springs are also suitable for full weight Big Block applications when 1/4" nose down rake is desired. Sold in front/rear pairs or as a complete set. Made in the USA!

DM91871-REAR 68-88 Rear Only (pair) **\$189.95**

**68-88 UMI 2" Lowering Springs**

UMI's drop springs are the best in the business. The front springs are wound from 5160 CrSi premium wire and feature a linear 600 lb/in rate. The rear springs are wound from 9254 CrSi premium wire and feature a linear 130 lb/in rate. The linear rate provides consistent handling characteristics for Auto-x and Pro-Tour applications while the increase in stiffness reduces body roll and prevents the "floating" feeling so common with the G-body. They have a tough black powder coat finish. The ride height is engineered for a 2" drop with standard SBC as well as LS power (lightened cars may require spring trimming). The front springs are also suitable for full weight Big Block applications when 1/4" nose down rake is desired. Sold in front/rear pairs or as a complete set. Made in the USA!

DM91870-REAR 68-88 Rear Only (pair) **\$189.95**

**68-88 UMI Rear Spring Spacer(s)**

UMI's rear spring spacers may be just the ticket to fine tune that perfect stance or prevent tire rub. UMI's zinc coated, laser cut mild steel spacers are available in 1/8" and 3/16" thickness and can be safely stacked. No cutting, welding or drilling required. Normal installation position is on the upper perch, but can be used on the lower. Available individually or as a complete kit (four 1/8" and two 3/16" spacers).

**73-77 Chevelle/El Camino Proportioning Valve**

73-77 Chevelle/Malibu & El Camino brake proportioning valve. This stock replacement valve is for cars equipped with front disc and rear drum brakes.

DB93020

\$91.00

**68-88 Disc/Disc Conversion Proportioning Valve**

This 5 port valve works great on factory cars that have been converted to rear disc brakes. This valve is preset for disc brakes in the front and rear. The 5 ports are; 2 ports on top for the lines from the master cylinder to the valve, 1 right front port, 1 left front port and 1 port for the front to rear brake line. This valve serves as a replacement on all GM cars from 1971-88. This valve is also used on GM rear disc brake conversions. There is no adjustment on the valve. It is set to be 50% front brake, 50% rear brake pressure.

DA93026

**Cooling Radiators**

**68-77 Champion Aluminum Radiator**

If your new bigger, badder engine is causing some strain on your cooling system, then a Champion radiator is the answer. Each radiator includes a 16lb cap and a transmission cooler (1/2"-20 straight thread). Total dimensions are 33"W x 18.625"H (19" w/ cap) x 2.75" deep, and the core measures 28.25"W x 17."H x 2" thick. The driver's side inlet is 1.5", and the passenger's side outlet is 1.5" in diameter. The tubes are 0.63" thick. They are available in a 3 core or 4 core designed to support 750 or 800 HP.

**73-77 Perforated Sun Visor Set**

This 1973-1977 Monte Carlo, Chevelle/Malibu & El Camino reproduction sun visor set features a strong yet flexible inner MDF structure. Inner boards are beveled and routed to insure the binding is nested firmly against the edges. Clay coated chipboard is used due to its resistance to moisture and warping. All metal components are riveted and made of rust resistant alloys. Visor pins are heavy duty steel, zinc plated and welded in the correct positions. Each material is laminated to each other to prevent separation.

**65-88 Polyurethane Rear End Housing Bushings**

UMI's high durometer polyurethane bushings replace the factory rubber rear end housing bushings. After many years of weather and abuse the factory rubber bushings tend to dry rot, crack and harden which can lead to decreased ride quality and performance. The UMI polyurethane bushings replace the two upper control arm rear end differential bushings - the bushings that stay attached to the rear end "ears". New rear end housing bushings are an excellent upgrade for your street driven or track used vehicle. Kit includes two bushings and two washers, the included polyurethane washers prevent the bushings from walking side to side. Available in black or red, and made in the USA.

**Shocks**

**68-88 UMI Street Performance Shocks**

UMI Street Performance monotube shocks are designed to bridge the gap between basic street shocks and aggressive racing shocks. Medium-firm compression valving provides crisp handling and absorbs bumps while still providing a comfortable ride. The ramped up rebound curve slows body roll during transition and gets rid of that unwanted floating feeling. A high pressure nitrogen charge prevents shock fade during hard cornering and further increases performance. Race proven technology with street friendly valving. Suitable for street, corner carving, Pro-Touring and non-competition drag racing. Available in front/rear pairs and as a complete set of 4. UMI Performance shocks are 100% manufactured in the USA.

DM91874-FRONT	Front Shocks (pair)	<b>\$279.95</b>
DM91874-REAR	Rear Shocks (pair)	<b>\$279.95</b>
DM91874-FTRR	Front and Rear Shocks (set of 4)	<b>\$549.95</b>

**68-88 KYB Gas-A-Just Shocks (set of 4)**

These 1968-1988 Monte Carlo, El Camino, Chevelle, & Malibu front and rear KYB gas shocks (set of 4) will provide a slightly firmer ride than factory and will handle much better. Their self-adjusting quality makes them get stiffer as more load is applied. This gives much better cornering and handling characteristics for both comfort and performance.

**Springs & Spindles**

**68-88 UMI 1" Lowering Springs**

UMI's drop springs are the best in the business. The front springs are wound from 5160 CrSi premium wire and feature a linear 600 lb/in rate. The rear springs are wound from 9254 CrSi premium wire and feature a linear 130 lb/in rate. The linear rate provides consistent handling characteristics for Auto-x and Pro-Tour applications while the increase in stiffness reduces body roll and prevents the "floating" feeling so common with the G-body. They have a tough black powder coat finish. The ride height is engineered for a 1" drop with standard SBC as well as LS power (lightened cars may require spring trimming). The front springs are also suitable for full weight Big Block applications when 1/4" nose down rake is desired. Sold in front/rear pairs or as a complete set. Made in the USA!

DM91871-REAR 68-88 Rear Only (pair) **\$189.95**

**68-88 UMI 2" Lowering Springs**

UMI's drop springs are the best in the business. The front springs are wound from 5160 CrSi premium wire and feature a linear 600 lb/in rate. The rear springs are wound from 9254 CrSi premium wire and feature a linear 130 lb/in rate. The linear rate provides consistent handling characteristics for Auto-x and Pro-Tour applications while the increase in stiffness reduces body roll and prevents the "floating" feeling so common with the G-body. They have a tough black powder coat finish. The ride height is engineered for a 2" drop with standard SBC as well as LS power (lightened cars may require spring trimming). The front springs are also suitable for full weight Big Block applications when 1/4" nose down rake is desired. Sold in front/rear pairs or as a complete set. Made in the USA!

DM91870-REAR 68-88 Rear Only (pair) **\$189.95**

**68-88 UMI Rear Spring Spacer(s)**

UMI's rear spring spacers may be just the ticket to fine tune that perfect stance or prevent tire rub. UMI's zinc coated, laser cut mild steel spacers are available in 1/8" and 3/16" thickness and can be safely stacked. No cutting, welding or drilling required. Normal installation position is on the upper perch, but can be used on the lower. Available individually or as a complete kit (four 1/8" and two 3/16" spacers).

**64-88 Performance Rear Air Bag Kit**

Improve launches and weight capacity by inserting these air bags inside your rear springs. Air bags work much better than air shocks, offering a better ride and by allowing a performance shock to be used. A must for wagons or El Caminos. Sold as a pair with air lines.

DM93750 **\$117.50**

**73-88 Viking Double-Adj. Front Coil-Over Kit (bearing mount)**

The UMI Viking front coilover kit combines a high quality hybrid spring with a 19-position double adjustable shock. The upper coil fits the upper spring perch on your vehicle while the lower part of the coil matches the coilover shock bottom. Viking offers two mounting options for the lower shock attachment points. Corner carving, drag racing, auto-x and road race should choose bearing ends for increased reliability and performance. A coil spring compressor is not required, as the adjuster acts as the compressor. The optional thrust bearing and spanner wrenches allow for easy adjustment of ride height from factory to 3" lowering. The shock itself has independent compression and rebound adjusters to allow custom tuning for street, strip, auto-x and road race - all in one shock. Viking coilovers work perfectly with the UMI lower a-arm or your factory lower a-arm. Pair with the UMI geometry-corrected upper a-arm loaded with a tall ball joint and head for the nearest high speed corner, 1/4 mile track or weekly cruise. Please see our web site for more details.

**68-88 Disc/Disc Conversion Proportioning Valve**

This 5 port valve works great on factory cars that have been converted to rear disc brakes. This valve is preset for disc brakes in the front and rear. The 5 ports are; 2 ports on top for the lines from the master cylinder to the valve, 1 right front port, 1 left front port and 1 port for the front to rear brake line. This valve serves as a replacement on all GM cars from 1971-88. This valve is also used on GM rear disc brake conversions. There is no adjustment on the valve. It is set to be 50% front brake, 50% rear brake pressure.

**78-88 UMI Front Frame Reinforcement Brace**

UMI's reinforcing front frame brace is used to stiffen the front frame horns and front crossmember area on the GM G-body platform. The UMI three point frame brace takes the place of the popular "Grand Prix Bar" and also the stock frame reinforcements. No drilling is required (uses existing holes) and Grade 8 hardware is included. This brace weighs in at less than 10lbs and is recommended for street, strip, auto-x or road racing. Also helps reduce squeaks and rattles common in G-body cars. Available in black or red durable powder coat. Made in the USA!

**78-88 UMI Rear Shock Tower Brace**

UMI's bolt-in brace ties the rear upper shock mounts together to share the load and stiffen the chassis. Strong 1-1/4" tubing is MIG welded to 3/16" thick laser cut brackets for a perfect fit. Hardware is included to make this a true, easy bolt-in installation. This brace is designed to clear all of the popular exhaust systems and works equally well on coilover setups and traditional spring/shock combinations. Also helps reduce squeaks and rattles common in G-body cars. Available in black or red durable powder coat. Made in the USA!

\$89.95

**Engine  
Firewall**

**78-88 Heater and A/C Delete Cover Plate**

1978-1988 Monte Carlo, Malibu & El Camino black powder coated A/C delete plate. Our panel is made of .080 thick 5052 aluminum. It's light weight and strength is ideal for this application. It meets NHRA requirements. A bead of silicon around the perimeter of the panel will seal out any fumes from the engine compartment (we recommend Permatex Ultra Black Hi Temp RTV Silicon Gasket Maker which comes in a black squeeze tube). May require drilling mounting holes in firewall. Custom colors may be available upon request.

**78-88 Seatbelt Release Block Off Plate Kit**

Replace your broken or unwanted seatbelt release mechanisms and clean up your door jamb with a block off plate kit. If you have replaced the stock seatbelts with new modern versions, then you no longer need the factory seatbelt releases located on the door striker posts. The original pieces are often broken and were discontinued by GM long ago. Kit includes: (2) stainless steel black powder coated block off plates, (2) plate gaskets and (4) mounting screws.

**Exterior**

**Fenders & Components**

**78-87 Plastic Inner Fenders (pair)**

1978-1987 El Camino & Malibu, and 1978-1980 Monte Carlo reproduction plastic inner fenders (pair).

Mounting holes will need to be drilled. Factory hole locations are pre-marked. This allows the end user to use smaller cleaner hardware or the factory hardware.

Note: The inner fenders will likely have surface scratches from being stacked together on the shelf (please see pics).

DM10339 \$249.00

**68-88 Inner Fender Washers (4)**

These large washers for 68-88 models are used under each inner fender mounting bolt. Use of these large washers will distribute the load from the mounting bolt, which lessens the chance of breaking plastic inner fenders or deforming metal inner fenders.

4 washers included per kit.

DM10338 \$2.95

**78-87 Complete Fender Bolt Kit**

1978-1987 El Camino & Malibu complete fender bolt kit.

Note: This kit could be used on Monte Carlos but does not include any pieces related to a SS nose.

**82-87 Manual Antenna Bezel**

1982-1987 El Camino and Malibu manual antenna base. This excellent reproduction is made from ABS plastic, and will be twice as strong and more resistant to turning grey and brittle in the sun than the original. Fits manual antennas only.

DM90029

\$19.95

**73-88 Fixed Mast Replacement Antenna & Cable**

1973-1988 direct-fit replacement antenna kit. It uses all metal mounting parts and a rugged stainless fixed mast. It includes five adapter angle heads for ease of installation and a 72-inch antenna cable.

DM80053

\$34.95

**73-88 Automatic Power Antenna Assembly**

1973-1988 fully automatic power antenna is a direct-fit replacement for your 1986-88 Monte Carlo and El Camino, but can be retro-fitted to any A or G Body car. This antenna features a 31" five-section mast and a 5' long cable. It also includes six custom mounting angled heads for a variety of installation applications. Operation is fully automatic: antenna extends when radio is turned on and retracts when radio is switched off. Note: 12" of clearance below the mounting point is required.

DM80055

\$59.95

**Stripes & Decals**

**Slide-On Decal Application Gel**

Nothing guarantees a perfect application of a stripe or graphic but slide-on. As long as you are using slide-on to apply your graphic you have time on your side!  
Take your time, the special contents of this gel resist drying until you are ready to squeegee the protective application gel out from beneath the vinyl surface. Only then does the graphic set-up and adhere. "The more SLIDE-ON® you use the more time you have."

**68-88 Carpet Padding**

1968-1988 Monte Carlo, El Camino, Malibu, & Chevelle 2/4dr carpet padding (insulation). Even though our molded carpets have some padding already glued to the back side, many customers are looking to upgrade their cars with a high quality 20oz pad to keep heat & noise out. This padding can be used for the floor, behind door panels, in the trunk, on the firewall, or where ever you want superior heat & noise protection. Plus it makes your carpet last longer.

**Gauges & Clusters**

**78-88 Dakota Digital HDX Instrument Gauge Cluster**

1978-1988 Monte Carlo, El Camino, & Malibu Dakota Digital HDX gauge cluster. Available with a silver or black alloy face, each HDX system allows the user to select independent illumination colors for the gauge readings and needles, as well as the message centers. Calibration and personal settings are manipulated with the built-in, capacitive-touch buttons, or the available Bluetooth app for Apple and Android devices. Each needle hub is black nickel plated spun-aluminum to match the buttons. All HDX instrument systems feature dead-faced indicators (turn signals, high beam, check engine, cruise control, parking brake, plus two user-definable), and a red, settable warning light for each gauge. With our central control box, installation is greatly simplified with vehicle-harness sourced signals and supplied, solid state sending units connecting cleanly to their respective terminal.

**78-88 Dakota Digital VHX Instrument Gauge Cluster**

1978-1988 Monte Carlo, El Camino, & Malibu Dakota Digital VHX gauge cluster. Fully lit needles, backlit faces, and two highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from the old traditional approach to instrumentation. A few of the features which you do not normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user-customizable display feedback, all supported by an unrivaled limited lifetime warranty which has become the standard for Dakota Digital instrumentation systems. Available with black alloy, silver alloy, or carbon fiber faces and blue, red, or white back lighting.

Note: Will not fit rectangular (sweep-style) clusters.

**78-88 6-Hole Shadow Box (w/ gauges)**

This 1978-1988 Monte Carlo, El Camino, & Malibu second design 6-hole shadow box includes gauges and must be custom wired to the car. These gauges are more accurate than the factory originals and they are easier to read. Gauges include: 160mph speedometer, odometer, fuel level, oil pressure, water temperature, voltmeter, and 10000rpm tachometer. New oil pressure and temperature senders included. LED lamps included for the turn signals, high beam and brake lamp indicators. A new speedometer cable is also supplied. The new shadow box and gauges will fit into your existing gauge pod (modification required to existing box). Must reuse existing right indicator lens, light switch & knob, A/C duct and dash vent from your old face plate. Must have the round gauge layout to work properly (rectangular speedo from 78-80 Malibu and El Camino will not work).

**Interior**

**Seat Components**

**78-88 Seatbelt Release Block Off Plate Kit**

Replace your broken or unwanted seatbelt release mechanisms and clean up your door jamb with a block off plate kit. If you have replaced the stock seatbelts with new modern versions, then you no longer need the factory seatbelt releases located on the door striker posts. The original pieces are often broken and were discontinued by GM long ago. Kit includes: (2) stainless steel black powder coated block off plates, (2) plate gaskets and (4) mounting screws.

DM01230-NATURAL	Natural	<b>\$16.95</b>
DM01230-BLACK	Black	<b>\$24.95</b>

**78-88 Seatbelt Release Mechanism Gasket Set (pair)**

1978-1988 Monte Carlo, Malibu (2dr), and El Camino seatbelt release mechanism door jamb gaskets. Sold as a pair.

DM01240		<b>\$4.95</b>

**78-88 55/45 Bench Seat Track Covers (set of 8)**

1978-1988 Monte Carlo, El Camino, & Malibu reproduction 55/45 split bench seat track covers (set of 8). Does not fit power seats.

DM00586	<b>\$94.95</b>
---------	----------------

**80-88 Power Seat Coupling (shear pin)**

1980-1988 Monte Carlo, El Camino, & Malibu reproduction power seat coupling. This is the shear pin that is designed to break when there is too much resistance on the seat track preventing damage to the motor or track. It is superior to the OEM piece with a higher resin base in the plastic. This allows it to be more durable than the original yet still break before damage occurs. Sold individually.

DM00175	<b>\$28.50</b>

DM94036

**\$62.95**

**78-88 UMI Front Frame Reinforcement Brace**

UMI's reinforcing front frame brace is used to stiffen the front frame horns and front crossmember area on the GM G-body platform. The UMI three point frame brace takes the place of the popular "Grand Prix Bar" and also the stock frame reinforcements. No drilling is required (uses existing holes) and Grade 8 hardware is included. This brace weighs in at less than 10lbs and is recommended for street, strip, auto-x or road racing. Also helps reduce squeaks and rattles common in G-body cars. Available in black or red durable powder coat. Made in the USA!

**78-88 UMI Rear Shock Tower Brace**

UMI's bolt-in brace ties the rear upper shock mounts together to share the load and stiffen the chassis. Strong 1-1/4" tubing is MIG welded to 3/16" thick laser cut brackets for a perfect fit. Hardware is included to make this a true, easy bolt-in installation. This brace is designed to clear all of the popular exhaust systems and works equally well on coilover setups and traditional spring/shock combinations. Also helps reduce squeaks and rattles common in G-body cars. Available in black or red durable powder coat. Made in the USA!

**Steering**  
**Steering Components**

**78-88 UMI Heavy Duty Bump Steer Kit**

UMI's G-body bump steer kit is designed to reduce or eliminate toe change during suspension travel (also known as "bump steer"). Reduction of bump steer improves handling and straight line stability and enhances overall precision of the steering system. These direct bolt-in kits allow the builder to relocate the outer tie rod end lower than stock (or higher if necessary). The stud taper is designed for exact factory fit for each application and is constructed of 4140 CrMo for strength and durability. Works with factory inner tie rods and factory spindle. Simple bolt-on kit with no spindle drilling required. The adjuster is 6061-T6 Aluminum hex for lightweight strength and features a hard anodized protective finish. Kits include shims of 0.125", 0.1875" and 0.250", and instructions with technical links. These race-tested bump steer kits are 100% designed and manufactured in the USA.

**65-88 Polyurethane Rear End Housing Bushings**

UMI's high durometer polyurethane bushings replace the factory rubber rear end housing bushings. After many years of weather and abuse the factory rubber bushings tend to dry rot, crack and harden which can lead to decreased ride quality and performance. The UMI polyurethane bushings replace the two upper control arm rear end differential bushings - the bushings that stay attached to the rear end "ears". New rear end housing bushings are an excellent upgrade for your street driven or track used vehicle. Kit includes two bushings and two washers, the included polyurethane washers prevent the bushings from walking side to side. Available in black or red, and made in the USA.

**78-88 UMI Tubular Upper and Lower Rear Control Arm Set**

Rear control arms are one of the most important suspension modifications that can be done to your GM vehicle. UMI's budget friendly tubular control arm kit replaces the upper and lower rear control arms on any 78-88 GM G-Body. Worn stock control arms can have bushing deflection and rusting weak stamped construction that add up to traction loss and poor handling ability. This kit is designed to improve traction and minimize wheel hop found with stock control arms. Lower control arms feature reinforced sway bar holes to accept stock or aftermarket sway bars. Available with adjustable or non-adjustable upper arms and in black or red durable powder coat. Made in the USA!

DM91910-BLACKNON	Black, Non-Adjustable Uppers	<b>\$309.95</b>
DM91910-BLKADJUST	Black, Adjustable Uppers	<b>\$399.95</b>
DM91910-REDADJUST	Red, Adjustable Uppers	<b>\$399.95</b>
DM91910-REDNON	Red, Non-Adjustable Uppers	<b>\$309.95</b>

**78-88 UMI Tubular Upper & Boxed Lower Rear Control Arm Set**

This kit replaces both the rear upper and lower rear control arms on any 78-88 GM G-Body. Kit is designed to reduce traction loss and minimize wheel hop found with stock control arms. Lower control arms are fully boxed for added strength and feature reinforced sway bar holes to accept stock or aftermarket sway bars. Available with adjustable or non-adjustable upper arms and in black or red durable powder coat. Made in the USA!

DM91911-BLACKNON	Black, Non-Adjustable Uppers	<b>\$459.95</b>
DM91911-BLKADJUST	Black, Adjustable Uppers	<b>\$549.95</b>
DM91911-REDADJUST	Red, Adjustable Uppers	<b>\$549.95</b>
DM91911-REDNON	Red, Non-Adjustable Uppers	<b>\$459.95</b>

**78-88 UMI Tubular Upper Controls Arms (pair)**

Rear control arms are one of the most important suspension modifications that can be done to your GM vehicle. The bushing deflection and rusting weak stamped material in stock control arms add up to traction loss and poor handling ability. These control arms are a direct bolt-on replacement designed to minimize wheel hop, improve cornering and help track consistency. The included Energy Suspension polyurethane bushings are an excellent improvement over OEM rubber bushings, while adding ride improvements they also work excellent to reduce traction loss. available in black or red durable powder coat finish. Made in the USA.

DM91913-BLACK	Black	<b>\$149.95</b>
DM91913-RED	Red	<b>\$149.95</b>

**Rear**

**78-88 UMI Adjustable Upper Controls Arms (pair)**

UMI's "Ultimate Arms" allow on-car adjustments in the garage or at the track and it's as simple as loosening two nuts! Pinion angle adjustments are a must when wanting to lower your track 60-foot times, increase traction and reduce unwanted wheel hop. These arms are made with aircraft quality 4140 chrome moly steel featuring a TIG welded construction. The upper control arm mounting points feature CNC machined 0.250" mild steel, 4140 Chrome-Moly tube adaptors and a high strength 4140 chrome moly heat treated 1.000" solid adjuster; truly overkill for any application! QA1 Teflon lined spherical rod end design allows for a bind free operation. Available in either black or red durable powder coat finish. Made in the USA.

DM91912-BLACK	Black	<b>\$239.95</b>
DM91912-RED	Red	<b>\$239.95</b>

**78-88 UMI Tubular Lower Control Arms (pair)**

Rear control arms are one of the most important suspension modifications that can be done to your GM vehicle. Stock control arms are on the borderline of "junk", bushing deflection and rusting weak stamped material add for traction loss and poor handling ability. These control arms are a direct bolt-on replacement designed to minimize wheel hop, improve cornering and help track consistency. Each control arm features the correct provisions for adding a stock or aftermarket sway bar. Sway bar holes are reinforced with a 0.120" wall thickness steel sleeve TIG welded and sanded into place. The construction of the control arms features 0.120" wall thickness rectangular tubing with CNC machined drawn over mandrel bushing holders and MIG welded end caps to keep out unwanted road debris. Can use OEM hardware or our replacement kits. Available with a black or red durable powder coat finish. Made in the USA.

DM91915-BLACK	Black	<b>\$169.95</b>
DM91915-RED	Red	<b>\$169.95</b>

**78-88 UMI Fully Boxed Lower Controls Arms (pair)**

Rear lower control arms are a must improvement for any General Motors G-Body vehicle. UMI's lower control arms are designed to replace your weak, rusted, factory-stamped arms, adding strength, rigidity and bushing improvement. Built using strong DOM steel tubing these direct bolt-on replacements help eliminate unwanted wheel hop while improving cornering and helping much needed track consistency. Lower Control arms feature CNC Machined 0.120" wall thickness mild steel tubing, fully TIG welded construction, grease able polyurethane bushings and Zerk grease fittings all combined to make the best arms on the market. Can use OEM hardware or our replacement hardware kit. Available with a black or red durable powder coat finish. Made in the USA.

DM91914-BLACK	Black	<b>\$319.95</b>
DM91914-RED	Red	<b>\$319.95</b>

**78-88 UMI Rear Control Arm Hardware Kit**

Don't reuse your old rusty bolts when installing aftermarket control arms when you can replace them with new one. Our kit includes all new hardware for installing both upper and lower rear control arms in your GM vehicle. Supplied is (8) 12 mm 10.9 High Grade steel bolts (equal in strength to American Grade 8), (8) 12 mm Nylon lock nuts and washers. Complete kit is bright zinc plated and is everything you need to install that complete control arm kit! Available for 2 arms or all 4.

DM91917-BLACK	Black	<b>\$39.95</b>

**78-88 UMI Rear Control Arm Reinforcement/Frame Braces**

The more power your ride makes the better chance of bending or breaking the rear control arm mounts. UMI trailing arm mount braces are designed to reinforce the rear upper and lower front control arm mounts on your 78-88 G-Body vehicle. Control arm braces are manufactured from DOM steel TIG welded and feature adjustment for a perfect fit on all 78-88 G-Body's. This kit includes new longer Grade 8 bolts, lock nuts and washers for a 100% bolt in installation. Available in black or red powder coat.

DM91918-BLACK	Black	<b>\$159.95</b>
DM91918-RED	Red	<b>\$159.95</b>

**78-88 UMI Rear Lower Control Arm Relocation Brackets (pair)**

Optimize your vehicle's instant center and improve forward traction by lowering the rear of the lower control arm 2", 2-3/4", or 3-1/4". Available bare for weld-in application or in black or red powdercoat for bolt-in. Welding recommended on cars running drag radials or slicks and faster than 11 second 1/4 mile time. Hardware included. Made in the USA.

DM91927-BLACKBOLT	Bolt-in w/ Black Powdercoat	<b>\$129.95</b>

**Shocks**

**68-88 UMI Street Performance Shocks**

UMI Street Performance monotube shocks are designed to bridge the gap between basic street shocks and aggressive racing shocks. Medium-firm compression valving provides crisp handling and absorbs bumps while still providing a comfortable ride. The ramped up rebound curve slows body roll during transition and gets rid of that unwanted floating feeling. A high pressure nitrogen charge prevents shock fade during hard cornering and further increases performance. Race proven technology with street friendly valving. Suitable for street, corner carving, Pro-Touring and non-competition drag racing. Available in front/rear pairs and as a complete set of 4. UMI Performance shocks are 100% manufactured in the USA.

DM91874-FRONT	Front Shocks (pair)	<b>\$279.95</b>

**79-88 Bell Tech 2" Drop Spindles**

These 1979-1988 Monte Carlo, El Camino, & Malibu direct fit Bell Tech 2" drop spindles lower your car without sacrificing ride quality or handling. They are not a direct fit for 78 vehicles, you will have to change your rotors, bearings and outer tie rods.

DM90087		<b>\$276.95</b>
---------	--	-----------------

**68-88 KYB Gas-A-Just Shocks (pair)**

1968-1988 Monte Carlo, El Camino, Chevelle, & Malibu KYB gas-a-just shocks. KYBs are an excellent street/performance replacement for the factory shocks and struts. They will provide a slightly firmer ride than factory and will handle much better. Their self-adjusting quality makes them get stiffer as more load is applied. This gives much better cornering and handling characteristics for both comfort and performance.

**78-88 UMI Complete Shock and Lowering Spring Kit**

UMI's spring and shock kit is designed to lower your car while providing a huge improvement in handling and control. These kits feature race quality lowering springs which provide a high performance foundation for your ride. Premium US sourced CrSi wire is wound into the correct rates (600 lb/in front, 130 lb, in rear) for street cruising, Pro-Touring, corner carving or light drag use. The UMI Performance nitrogen charged monotube shock features medium-firm compression valving and a ramped up rebound curve to properly control the UMI spring. The rebound valving also controls body roll when cornering and contributes to a high performance ride. Available in a 1" or 2" drop. Made in the USA!

**Springs & Spindles**

**68-88 UMI 1" Lowering Springs**

UMI's drop springs are the best in the business. The front springs are wound from 5160 CrSi premium wire and feature a linear 600 lb/in rate. The rear springs are wound from 9254 CrSi premium wire and feature a linear 130 lb/in rate. The linear rate provides consistent handling characteristics for Auto-x and Pro-Tour applications while the increase in stiffness reduces body roll and prevents the "floating" feeling so common with the G-body. They have a tough black powder coat finish. The ride height is engineered for a 1" drop with standard SBC as well as LS power (lightened cars may require spring trimming). The front springs are also suitable for full weight Big Block applications when 1/4" nose down rake is desired. Sold in front/rear pairs or as a complete set. Made in the USA!

**Springs & Spindles**

**68-88 UMI Rear Spring Spacer(s)**

UMI's rear spring spacers may be just the ticket to fine tune that perfect stance or prevent tire rub. UMI's zinc coated, laser cut mild steel spacers are available in 1/8" and 3/16" thickness and can be safely stacked. No cutting, welding or drilling required. Normal installation position is on the upper perch, but can be used on the lower. Available individually or as a complete kit (four 1/8" and two 3/16" spacers).

DM91872-SET	Set of 6 Assorted Spacers	<b>\$39.95</b>
DM91872-3-16	Single 3/16" Spacer	<b>\$9.99</b>
DM91872-1-8	Single 1/8" Spacer	<b>\$9.99</b>

**78-88 Stock Front Springs (pair)**

These 1978-1988 Monte Carlo, El Camino & Malibu stock front springs (pair) are stock replacements for the 1986-1988 Monte Carlo SS. The may be slightly lower and stiffer when used on other models. Loaded Height (1640 lbs): 11". Spring Rate: 423 lbs per inch.

DM90089		<b>\$124.95</b>

**78-88 UMI Complete Shock and Lowering Spring Kit**

UMI's spring and shock kit is designed to lower your car while providing a huge improvement in handling and control. These kits feature race quality lowering springs which provide a high performance foundation for your ride. Premium US sourced CrSi wire is wound into the correct rates (600 lb/in front, 130 lb, in rear) for street cruising, Pro-Touring, corner carving or light drag use. The UMI Performance nitrogen charged monotube shock features medium-firm compression valving and a ramped up rebound curve to properly control the UMI spring. The rebound valving also controls body roll when cornering and contributes to a high performance ride. Available in a 1" or 2" drop. Made in the USA!

DM91873-1INCHDROP	w/ 1" Lowering Springs	<b>\$849.95</b>
DM91873-2INCHDROP	w/ 2" Lowering Springs	<b>\$849.95</b>

**79-88 Bell Tech 2" Drop Spindles**

These 1979-1988 Monte Carlo, El Camino, & Malibu direct fit Bell Tech 2" drop spindles lower your car without sacrificing ride quality or handling. They are not a direct fit for 78 vehicles, you will have to change your rotors, bearings and outer tie rods.

DM90087	<b>\$276.95</b>
---------	-----------------

**64-88 Performance Rear Air Bag Kit**

Improve launches and weight capacity by inserting these air bags inside your rear springs. Air bags work much better than air shocks, offering a better ride and by allowing a performance shock to be used. A must for wagons or El Caminos. Sold as a pair with air lines.

**Springs & Spindles**

**73-88 Viking Double-Adj. Front Coil-Over Kit (bearing mount)**

The UMI Viking front coilover kit combines a high quality hybrid spring with a 19-position double adjustable shock. The upper coil fits the upper spring perch on your vehicle while the lower part of the coil matches the coilover shock bottom. Viking offers two mounting options for the lower shock attachment points. Corner carving, drag racing, auto-x and road race should choose bearing ends for increased reliability and performance. A coil spring compressor is not required, as the adjuster acts as the compressor. The optional thrust bearing and spanner wrenches allow for easy adjustment of ride height from factory to 3" lowering. The shock itself has independent compression and rebound adjusters to allow custom tuning for street, strip, auto-x and road race - all in one shock. Viking coilovers work perfectly with the UMI lower a-arm or your factory lower a-arm. Pair with the UMI geometry-corrected upper a-arm loaded with a tall ball joint and head for the nearest high speed corner, 1/4 mile track or weekly cruise. Please see our web site for more details.

**73-88 Viking Double-Adj. Front Coil-Over Kit (poly mount)**

The UMI Viking front coilover kit combines a high quality hybrid spring with a 19-position double adjustable shock. The upper coil fits the upper spring perch on your vehicle while the lower part of the coil matches the coilover shock bottom. Viking offers two mounting options for the lower shock attachment points. Mild street applications can use polyurethane for ride comfort and reduced harshness. A coil spring compressor is not required, as the adjuster acts as the compressor. The optional thrust bearing and spanner wrenches allow for easy adjustment of ride height from factory to 3" lowering. The shock itself has independent compression and rebound adjusters to allow custom tuning for street, strip, auto-x and road race - all in one shock. Viking coilovers work perfectly with the UMI lower a-arm or your factory lower a-arm. Pair with the UMI geometry-corrected upper a-arm loaded with a tall ball joint and head for the nearest high speed corner, 1/4 mile track or weekly cruise. Please see our web site for more details.

**78-88 Viking Adjustable Rear Coil-Over Kit**

The UMI bolt-in rear coilover kit allows full ride height, spring rate and damping adjustability for your 1978-1988 GM G-Body. The upper mount reinforcement is a direct bolt-in and holds a true 2-1/2" racing coilover with T-Bar. The FEA designed lower bracket bolts in using the standard trailing arm mounting hole as well as an additional reinforcement hole normally used by the standard rear shock. The Viking shock is 19-way adjustable in both compression and rebound and ensures the perfect setting for every application. The 2-1/2" coilover springs are available in 14" 110lb for drag use, 12" 150lb for street use and 12" 225lb for auto- x/road race. There is no cutting required and your car can be returned to normal if desired. Please see our web site for more details.

**Sway Bars**

**78-88 UMI 1" Solid Chromoly Rear Sway Bar**

UMI's beefy 1" solid rear sway bar is designed to reduce body roll, understeer and increase cornering capabilities resulting in a more balanced suspension. It also works well to keep your vehicle level and straight during those hard launches. Manufactured from 1" solid 4140 chrome moly steel, heat treated and formed as one piece to insure maximum strength and performance. This process allows the bar to maintain its shape and memory longer than a cold bent bar. Includes all new Grade 8 hardware to complete the installation. Available powder coated Bright Red or Gloss Black. Made in the USA!

DM91875-RED	Red	<b>\$159.95</b>
DM91875-BLACK	Black	<b>\$159.95</b>

**78-88 UMI 1-1/4" Solid Chrome Moly Front Sway Bar**

UMI Performance's 1.250" (32mm) solid front sway bar is designed to reduce body roll, understeer and increase cornering capabilities resulting in a more balanced suspension. This front sway bar is more rigid than the factory 7/8" (non-F41) front sway bar and bolts directly in place with no modifications. Manufactured from 4140 chrome moly steel, CNC bent and formed as one piece to insure maximum strength and performance. Each kit includes new Energy Suspension end links and greaseable center bushings with new zinc plated brackets. Powder coated bright red or gloss black for a durable long lasting finish. Made in the USA.

## Terms and Conditions

Dixie Restoration Depot is committed to providing secure and wide ranging options for ordering products on-line as well as off-line. The following terms and conditions apply to all orders placed with Dixie Restoration Depot, regardless of the medium used to place the order:

**Aftermarket Parts:** Dixie Restoration Depot does not guaranty that any of its aftermarket parts are street legal in all areas. Always check your local ordinances before replacing an OEM part with an aftermarket part. Neither Dixie Restoration Depot nor its suppliers can be held liable for expenses incurred as a result of installing a part that is not street legal.

### Placing An Order

When placing an order, please provide your first and last name, customer account number (located on the back of your catalog), address, daytime phone number, credit card number, expiration date and part numbers so that we may process your order as quickly as possible. All charges are quoted in U.S. Dollars. Prices and product offerings are subject to change without notice. Connecticut orders are subject to 6.35% state sales tax. Orders that contain items that are in stock will be shipped on the same day that the order is placed, provided that the order is received by 2pm Eastern Time, Monday through Friday.

**On-line Orders:** On-line orders are processed at 8am and 2pm Eastern Time, Monday through Friday and 8am on Saturday. Please keep this in mind when ordering on-line. We will make every effort to ship your order on the same day unless a part is not in stock. Please see the Back Orders section for more details.

**Credit Card Orders:** All credit card orders over \$200.00 must be shipped to an address authorized by the bank that issued the credit card. To authorize an address other than your billing address, call the phone number listed on the back of your credit card. Dixie Restoration Depot will not ship any order over \$200.00 to an unauthorized address.

**Mail Orders:** Mail orders paid for with a personal check will be held for two weeks or until the check clears. Please be sure to fill in your order blank completely so that we may process your order as quickly as possible. If you have any questions about filling out the form, please call 1-877-243-4943.

**International Orders:** All international orders must be prepaid by credit card, certified check/money order or PayPal (orders@dixierestorationdepot.com) in U.S. Dollars. International COD's will not be accepted. When using a credit card, the order must be shipped to an address authorized by the bank that issued the credit card. To authorize an address other than your billing address, call the phone number listed on the back of your credit card. Please call for shipping rates to destinations outside of the U.S. Dixie Restoration Depot ships with several different carriers in order to meet your shipping needs. Customers are responsible for any and all importing duties and/or fees.

**Gift Certificates:** Orders paid for with a gift certificate are subject to the same terms and conditions as orders paid for with any other payment method. When redeeming a gift certificate, please provide the gift certificate number. Gift certificates are not transferrable and must be redeemed at the time the order is placed. Gift certificates cannot be redeemed for cash or any other form of credit. Returned parts that were paid for with a gift certificate are only eligible for store credit (no cash refunds). Please call or email if you have any questions or concerns.

**When You Receive Your Order...** Please open the box immediately. Any damage or discrepancy must be reported to us within 10 days of receipt. Claims reported more than 10 days after delivery will not be acknowledged.

**Returns:** If you need to return a part(s), please call 1-877-24-DIXIE (877-243-4943) or 1-860-645-1917 to obtain a return authorization number. This number MUST be clearly marked on the outside of the package being returned. Packages without a return authorization number will be refused.

Returns MUST be received within 30 days of the original date you received the merchandise. Returns must also include a copy of the original invoice and a detailed note describing the reason for return. All returns are subject to a 20% restocking fee.

Warranties are limited to the manufacturer's warranty. Installing any part on any car other than originally intended immediately voids any and all warranties. Books, videos, electrical parts, special order parts (parts dyed or painted to match your interior color), body panels or sheet metal (parts such as: hoods, fenders, doors, quarter panels, trunk lids, tail gates, or roofs.), and products damaged during installation cannot be returned.

Refunds are limited to unaltered never installed items, in their original packaging, purchased from Dixie Restoration Depot only. Labor costs are NOT refundable.

Always open packages the day you receive them to check for any damage that may have occurred during shipping. If parts were damaged during shipping, please save all packaging material and call 1-877-24-DIXIE (877-243-4943) or 1-860-645-1917 immediately!

**Back Orders:** Occasionally, a popular part may not be ready for immediate shipping. Should this occur, parts will be back ordered and shipped as soon as possible. If you are unsure of the status of an order or backorder, please call 1-877-24-DIXIE (877-243-4943).

**Core Charges:** Some products may require an additional refundable core charge because they are either reconditioned or remanufactured. The core charge is always indicated and will be added to the original order. Each core charge will be refunded when your old part is received, provided that it is in rebuildable condition. Dixie Restoration Depot will not pay for the shipping of any core. Any core charge not included with a mail, fax or internet order will be added automatically without notice. Remember that core charges are applied to each rebuilt item ordered (ie: 4 rebuilt calipers = 4 core charges). Core charges only apply to rebuilt or remanufactured products. You will not be charged a core for any new products.

### Privacy Policy

Our web servers collect the domain names, not the e-mail addresses, of visitors. Our web servers may also seek to place a 'cookie' (a small data file) on your computer's hard drive. These cookies will not contain any information that personally identifies you (such as your name or e-mail address) but they will contain a randomly generated number that is unique to your browser, and may also contain visitor preferences or session information, such as items added to a shopping cart. The information that is tracked is only used for internal purposes, such as to improve site navigation and to measure the effectiveness of our promotional placements, and is not shared with any other third party.

There are portions of this Web site where we may need to collect personal information from you for a specific purpose, such as site registrations or online ordering. When we transfer and receive certain types of sensitive information, such as financial or personal information, we employ servers equipped with SSL encryption. The information collected from you may include your name, address, telephone number, fax number, e-mail address, and payment information (e.g., credit card number and billing address).

The information we collect is used to process your inquiry or order request, and may also be used to notify you about updates to our web site or for other marketing purposes. If you supply us with your postal address, you may receive periodic mailings from us with information about new products and services or upcoming events. If you do not wish to receive marketing e-mails or postal mailings, you can opt out by calling us at 1-860-645-1917 or by sending an e-mail to email@dixierestorationdepot.com. An unsubscribe link is also provided in the footer of our website. When contacting us, please provide your exact name and address, and we will be sure your name is removed from our mailing list.

We may share the personal information you provide with other companies we have hired to provide services for us. These companies (our vendors) are contractually bound to use personal information we share with them only to perform the service we have hired them to provide. We do not share, sell, or lease personal information about you to any third-parties for their marketing use. We do not partner with or have special relationships with any Ad Server companies. We will release information about you if you direct us to do so, if we are required by law to do so, or in other legally limited circumstances (for example, to protect your account from fraud).

We maintain strict physical, electronic, and administrative safeguards to protect your personal information from unauthorized or inappropriate access. We restrict access to information about you to those employees who need to know the information to process your inquiry or request.

Please check this privacy policy periodically to keep informed of any changes. We may use customer information for new, unanticipated uses not previously disclosed in our privacy policy. If our information practices change at some time in the future, we will contact you before we use your data for these new purposes to notify you of the policy change and to provide you with the ability to opt out of these new uses.

### Disclaimer

For the purpose of identification only, all terms and names used in this catalog and on the website describe parts and vehicles originally manufactured by GM.

**\* - Sheet Metal Disclaimer:** No two cars are ever alike. Even though we have had very good results with this part, there is no way to guarantee that it will fit your car exactly. You may need to modify the part to fit your car just as GM did when the car was built. Altered parts cannot be returned, please see the Returns section for more details. If you have never worked with sheet metal, you should consider consulting a professional auto body technician.

**f - Freight Disclaimer:** This item must be shipped via truck freight. We will contact you with the exact cost of shipping. Truck freight shipments must be signed for by the recipient. Please inspect the shipment before signing for it and note any damage on the drivers bill. Once you sign for a truck freight shipment without noting damage and take possession of it, you release your right to file a claim. If the shipment has been damaged, call us immediately to report the problem. We may not be able to rectify your issue if you do not call us within 24 hours of receiving the shipment.

# DIXIE RESTORATION DEPOT

## 1982-87 Aftermarket Gauge Clusters

For those seeking gauges that are easier to read and more accurate than the factory originals, we offer a variety of aftermarket options. Whether you like black or white gauge faces, Classic Instruments or AutoMeter, we have a desirable configuration for you.

## 1978-87 Lower Door Panels

Want more sound from your classic Chevy? Our exclusive aftermarket lower door panels come in a variety of factory colors and can accommodate one or two 5.25" speakers.

Power lock and remote mirror holes are scribed on the back side of each panel for those with these factory options. Enhance interior appearance and sound quality with one easy upgrade. For those who prefer the factory look, we also carry a complete line of stock replacement door panels in a variety of factory options and colors.
